The LANITE
OF
1937

YEAR BOOK
Published by the Student Body of Lane College Jackson, Tennessee
Dedication

To the students who now tread the paths on Lane College Campus; to those of you who have just entered:

To you who are leaving, may you ever keep before you the "Holy Grail" of service, exemplifying the lessons learned here at Lane.

To you who are continually entering: Improvement of character, acquisitions of cultural assets and a lessening of educational liabilities should be your aim. May you successfully fill the places of those whose lives have been eminently serviceable.

Foreword

We believe that much worthwhile work has been accomplished during the year 1936-37. In an attempt to meet the demands of an evolving social order, a revisionalization of educational principles was initiated. Curricular and extra-curricular programmes completed the cycle offering to the participant a more flexible perceptive of living.

May the experiences as preserved within these pages grow more precious with the passing of future years. We present to you—"The Lanite".

College
Brief History

Fifty-four years ago, under the heroic leadership of the great Bishop Isaac Lane, Lane College was founded by the Colored Methodist Episcopal Church.

In January of 1880, four acres of land were purchased in Jackson, Tenn., for the location of this Christian institution. Through the efforts, sacrifices, and energy of Bishop Lane and others associated with him, the school began its first session in November, 1882, under the title of "C. M. E. High School." The upward march of the school had started. Two years afterwards the school was chartered under the laws of the State of Tennessee, and its name changed to Lane Institute. In 1889, a large two story frame building was erected, which served for some years as a dormitory for the girls. Next, the administration building was erected.

Being in need of a president, an appeal was made to the Methodist Episcopal Church South, in 1887, for one; Rev. T. F. Saunders, D. D. was appointed the first president. This Christian laborer was the leader of the affairs of the school for fifteen years.

In 1896, the College Department was organized and the name of the school was changed to Lane College. In 1903, Rev. J. A. Bray, A. M., L. L. D., was appointed president. During his leadership, the college lost by fire its principal buildings. In 1906, through the wonderful co-operation of friends, the new main hall was erected.

In May, 1907, J. F. Lane, A. M., Ph. D., was tendered the presidency. His term began May 25, 1907, and since then the institution has been on a continual upward march. There have been many improvements through the years: the Girls' Hall, with all modern conveniences, was completed in 1908. A steam heating plant was installed during the year of 1908-09; a dormitory for boys was completed in 1914; the Reeves Industrial Hall, a home for girls' industries and music, and a dormitory for girls, was completed in 1921; the Science Hall was completed in 1925, which also houses our Library and Reading Room. With these and many other improvements the College entered upon a larger sphere of usefulness.

In 1936, Lane College was voted membership in the Southern Association of Colleges and Secondary Schools.

Founder

Bishop Isaac Lane, D. D., LL. D.

Bishop of C. M. E. Church; born in Madison, Tennessee, March 3, 1834; 103 years of age; joined the C. M. E. Church 1854; called to ministry in the same Church; served as pastor and presiding elder until 1876, when he was elected to the Episcopacy of the C. M. E. Church in Indiana. He presided over every Annual Conference that he attended; led in the establishing of the publication department of the C. M. E. Church; moved to Tennessee in 1877. He has remained ever since; widely known as a great spiritual leader and bishop. He established the conference of his church in the Indian Territory. Founder of Lane College. He is married twice. At this time he is well and very active for a man of his age.

"Yesterday"

Yesterday, we were beginners
In the broad fields of human existence;
Today, we stand as the product
Of time and training.

Yet while across the span of years;
We saw the web of approaching dawn,
Wrapped in the heavy mist of night;
Which filled our hearts with glimmer,
And inspired our thoughts with flights.
Our eyes floated on with an ever tread,
Because we could not comprehend
Its meaning, its depth, and sparkling glow.

We mingle with the weak and strong,
With those who sigh or without a song,
Whose hearts we deemed to be pure gold,
Seemed martianate, and very cold.
But now with a keener sight, we view
The forms of all that’s old and new.
The scowling greed, the bitter strife
And all that leads itself to life.

The paths of glory we sought to tread,
Are strewn with thorns above our heads,
And the things we once so fondly prized.
We now reject with selfish pride.
But for life’s fulfillment,
For the lovely hours,
We crave a destiny tomorrow,
And the sum of all we know;

The fruit of all the seed we sow in our youth.
Man and womankind must breathe the cradle of the truth.

Music

Music is one of the fine arts. It has great educational value. Probably no one would deny its value as a culture study, but not all appreciate that in addition there is no other subject in the school curriculum more useful in training the senses and in mental discipline.

Music trains the ear, the eye, the voice, and the hand, and furnishes the best kind of exercise for the intellect.

The issue of the two college clubs, in point of perfect harmony, superior melody, fascinating arrangement, and general harmony, is one of the best vocal combinations of its kind in the entire South. The members of the clubs are as follows:

No history of the institution is complete without a history of its oldest organization. In 1908, this society was the first Greek organization on the campus. Taking its name from the Greek City State, this organization was founded on the principles of democracy. The freedom of speech in its open forum and the opportunity in participating on its panels. This organization owes its success to the broad scope of its program, which involves every student and organization.

The Sphinx Club

The Sphinx Club was organized on Lane College Campus at the coming of the Beta Pi chapter in 1935. Since that time the club's membership has fluctuated. Finally, after the initiation of three new members in January, 1937, the membership settled to sixteen pledges, our present enrollment.

The Sphinx is a preparatory club of the Beta Pi chapter of the Alpha Phi Alpha Fraternity.

The purpose of nucleus body is to promote a perpetual bond of fraternalship among the courteous pledges of the Alpha Phi Alpha in order to propagate the true feeling of brotherhood.

The social activities of the body include group singing, club discussions, skits, and frolics.

SIGMA GAMMA RHO SORORITY

The Sigma Gamma Rho Sorority is one of the Greek-letter organizations on the campus. It was organized during the year 1932 with the purpose of encouraging scholarship, support high ideals of pure and good womanhood and inspire its members to be and do what is necessary for the highest and best in them as students and members of society. There has also been recently established a graduate chapter of this sorority, Xi Sigma, which has many plans that will be of much benefit to the campus chapter, Alpha Gamma.

Beta Pi of Alpha Phi Alpha Fraternity

On the campus of Lane College, in the month of February, on the twenty-first day, in the year of 1936, fifteen men saw the "light". The coming of Beta Pi chapter of Alpha Phi Alpha fraternity brought inspiration to all of the "red-blooded" men of the school, especially the ones that became members of the oldest fraternity of the Negro race. We are glad to say that Alphadom holds within its fold many of the outstanding men of America. For the latter reason we as Ape's have models to aspire to in any field we would undertake to explore.

Our first officers were: C. N. Berry, president; W. Womack, vice-president; A. N. Burrow, recording secretary; W. G. Graves, corresponding secretary; T. J. Robinson, treasurer; J. E. Walker, chaplain; Grantberry, sergeant-at-arms.

Professors of the Chemistry and Biology departments are responsible for this great asset to Lane College's campus. They are Prof. J. T. Beck and Prof. B. Caruthers, respectively.

The segment of Alphadom on the campus of Lane has done much in the constructive work of organizations.

The officers at present are: A. N. Burrow, president; J. Merry, recording secretary; W. G. Graves, corresponding secretary; T. J. Robinson, treasurer; C. Barnes, chaplain; and T. Forte, sergeant-at-arms.

We have had three initiations since we have set up here and we are proud to boast of thirty-one financial and active members.

We are still more proud to know that the president of Lane College is an honorary member of Alpha Phi Alpha. He has inspired us to be more moral, more conservative and more creative. We are very grateful for his membership.

The fraternity has been beneficial in contacting leading men in Washington, D. C., urging the passing and amending of desirable bills in Congress.

Annually the fraternity sets aside a week for a well known campaign. This campaign, known as "The Education for Citizenship Campaign," was fostered by Beta Pi of Alpha Phi Alpha during the last week of April. Due to the conscientious work and planning our efforts for this year were crowned with success. Being the initial campaign we expect to do greater work in the coming years.

We visited twelve grammar and high schools with Walker, Berry, Clay and Burrow as the speakers. These brothers urged the students to continue their education, showing the advantages in doing so.

In last year's commencement month, the Alpha's banquet was most unique and it is commemorated until this day by the attendants. Dean Irving gave a noteworthy address. President Lane and wife graced us with their presence and sanctioning of the Alpha's fiscal program.

This year we are looking forward for a bigger and better banquet. With the type of men that constitute the Alpha Phi Alpha ranks we are sure of greater work yearly.

We shall ever hold up the standards of our dear school, Lane College, and forever keep aloft the principles and ideals of Alpha Phi Alpha.
ATHLETIC ASSOCIATION

DEDICATION

This successful year of Inter-collegiate Athletics is dedicated to Triplett, whose prowess and all-around ability is traditional on the campus. It was due to his superb ability that Lane first wrote her name in the sun.

SPORTS

The Blue horde of Lane, under Coaches "Ox" Clemmons and J. T. Beck, compiled an enviable record on the gridiron for 137 of 6 wins, 2 ties, and 1 loss. This mighty jujasch shouted power, speed, and a deceptive offense to scam- roll their opponents, thus regaining their past prestige as one of the nation's ranking teams and earning admittance into the Southern Conference.

Among the colleges that we were victorious over were: M. I. College, 12-0; Lincoln U. (Mo.), 12-0; Alabama A. & M., 65-0; Philander Smith, 2-0; Knoxville, 7-6; and Xavier, 19-13. The Dragons seem to have met their equal when they met Fisk University, 66-0 and Texas A. & J. State, 0-0. "In a Thanksgiving classic, on which hung Lane's championship hopes, the Dragons lost a heart-breaker, 38-0. It was LeMoyne's best day, and Lane's worst day. LeMoyne would have beaten anyone that day and Lane would have lost to anyone that day. Chilled to the bone from cold and defeat, the Blue horde ended the season vowing to avenge that one blot on their record."

Basketball

The Lanites not engaging in intercollegiate competition, devoted their time to fostering spirited competition among classmates. The Seniors showed the way to the other classes, as all seniors should. Having won six and losing none, the seniors passed their noble heritage and will to win, down to the freshmen, who were runners-up and toughest competition. The roster of the champion class was: Berry, E. Clay, J. Sisson, W. Spann, W. Womack, and G. V. Glenn.

Football Squad
Track and Boxing

Track Team

Led by its premier miler, Jack Spann, (manager of track), Lane has more than its share in track material. In the mile, quarter mile and two mile, the Blue and Red squad have Jack Spann and Edgar Clay, who also has won recognition with the weight. For high jump, sprints, hurdles, they have the rampaging "Wild Man," Sims, who won quite a number of interscholastic track medals in prep school days. Bull Clay, of football renown, performs in two events, sprints and high jump, and surpasses in both, as does Warford. In J. H. Spann, Mason and Turner, fast swimmers, Lane has the nucleus for a crack relay. Up to date Lane's heroes of the cinder paths have shown class, they were runners-ups in points scored in several track meets and boast of many trophies and medals.

Boxing Team

The boxing team of Lane College for two years has successfully advanced to the finals in the Memphis Golden Glove Tournament. This year's team, composed of Bob Jackson, Virgil Pulliam, Fred Spann and Vincent Sims, kept their enviable last year's record intact. Due to the lack of many college boxing teams, the squad's development is hindered because of limited amateur competition, but hope to have more bouts next year.

Queen of Dragons

Charming Miss Helen Lane, of the freshman class, won the distinction of being the second southern young lady in the history of the institute to be chosen MISS LANE. Miss Lane is a blender of the older and younger classes, with her flowing school colors of red and blue, beautiful Miss Lane was crowned queen between halves of the homecoming game. Accompanying the crown on its remaining out-of-town games, Miss Lane has no doubt added much to the team's morale for inspiring presence.

All-American

By the concensus of opinion of sport writers the country over, "Milky" Williams was chosen unanimously ALL-AMERICAN tackle. Williams is a ponderous 6-footer, weighing above 200 pounds, who did prep work at Van Horn High, of St. Louis, Mo. He has combined speed, weight, and power to give Lane a powerful halfback in the forward wall. A constant menace on the defense, Williams has contributed much to Lane's enviable record of 6 wins, 2 ties, and one defeat. Only a freshman, Williams' greatest problem is to maintain his outstanding success. Whether this honor and sterling playing will go to Williams' head and affect his playing is a matter to be conjectured.
Aesthetic Dancing  •  Tennis

All women students of Lane College whose interest turns to recreation strive for the attainment of some specific sport. Competition, although mostly between the class teams, features playoffs for individuals, novices, and a series of Saturday playoffs.

Swinging a mean racquet, feminine Lanites strove to emulate the form and technique of "Queen Helen." Tennis thrived as an after-school sport, in which Lois Cutler and Alice Clark proved successful. Other after-school recreations include gymnastics and aesthetic dancing. Velina Hurter and Ernestine Everett showed their superiority over the others as admirers of King Apollo.

Popularity Contest

In a Popularity Contest, sponsored by the Annual Staff, charming Miss Evelyn Dorothy Day, of the Freshman Class, won out in a spirited race that saw the brilliant Miss Georgia Hightower, of the Junior Class, lose by a close margin. Miss Day excels in her classroom work and likes tennis, hiking, and swimming as a diversion. Miss Hightower, a member of the Opposite Sex, the Gee Club, and the Kappa Lambda Phi, is a member of the opposite sex and well-liked. The two were well chosen and fill the requirements of any context.

HUMOR

When Prof. Jeans made his first goal in the basketball game (March 1, 1937) he did it like Baby Tuggle—applauded himself.

"Favorite Last Words"—From you Guess Who?
"Class name for me two other con-quist-ti-do-ri-as."
"Warm up, Abe."
"I would have you appreciate."
"Scrubbing."
"Did you hear that guy class?"
"Do you know that two-thirds of the people ain't white?"
"Has the last bell rung?"
"Aright, tell me about —."
"Duggone."

"Today's Best Gag"

Somebody said it got so hot in certain sections of Tennessee that a cow, while grazing in a pop-corn field, frizzed to death thinking the corn to be snow.

Mrs. Porter—"There are many monasteries in that section of the country."
Mr. Stewart—"P-p-p-pardon me, but-but you said there were how many monks there?"

Prof. Berry—"Now, class, let us sing 'The Consecrated Cross I Bear.'"
T. J. H.—"Tu-ner, what did you say 'bout that consecrated cross-eyed bear?"

One for the Biology department: "The black cow which eats green grass and gives white milk."

The modern girl adores spinning wheels; but she wants four of them and a spare.

Sociology

Teacher—"What perhaps is the three great menaces to safe driving in America?"
Johnny—"Hi," "Hic," and "Hug."

"Do You Catch It?" (smile)

A fly and her daughter were out for a stroll on the bald portion of a sleeping man; the older fly spoke, "My dear, how times have changed; when I was your age, this was only a path, and now look at its vast span."

The oldest woman's club is the "Broomstick."

J. S. M.—"Why was R. H. T. so severely reprimanded by the Librarian?"
W. J.—"His medical desires caused him to be caught removing the appendix from the book he was reading."

One on the Cafeteria

Waitress J. V. J.—"I am sorry you don't like our cakes, but I can assure you that this business has been built up almost entirely on our cooking."

N. H.—"I don't doubt that; but with a few more rolls like these you could build a new dormitory.

Among the weddings of the "Who's Who" this year of 37 will be the betrothal of Mr. Walburt J. Stidow to Miss Lower Wage Striker; the nuptials will be emphasized by Rev. Injunction.

A.—I wonder just who the Freshman was that nearly rubbed the card cabinet in the
library on being told he would find the books on the card?

From Latin America, it is said of the man attempting to journey through the
swamps, was attacked by a mosquito so large and vicious till he ate the males and
finished by picking his teeth with the wagon tongue.
