What are your plans, Black College Student;
When your four years have ended?
Will you accept a part
To help other Brothers and Sisters start?

Will you stand up against an unjust system,
Or will you be with them?
How can you forget us after you receive your degree,
Since they are out to get you as well as me?

Will you be with us without a doubt,
And help stamp these injustices out?
Black College Student, can we depend on you,
To help your Brothers and Sisters through?
