CAMPUS LIFE

The Lake College student body is normally composed of representatives of about one half of the fifty states and several foreign countries. The majority of the students are residents of Tennessee and the several bordering states. There are many religious denominations represented. More than one half of the students enrolled are housed on campus. The remainder either commute or have accommodations in the community.

Campus life offers various extra curricular activities in which students are invited to participate. Students are invited to participate in helping the administration help them to better develop themselves.

Overall, Lake College offers students a well-balanced liberal arts education and seeks to add variety to its program offering to prepare its students for today's job market.

DEDICATION

PRESIDENT HERMAN STONE
AND
BISHOP WILLIAM H. GRAVES

The 1982-83 edition of the "Lanite" is dedicated to the two individuals who bear at the helm of Lane's administrative body, President Herman Stone and Bishop William H. Graves, presiding Bishop of the First Episcopal District of the Christian Methodist Episcopal Church and Chairman of the Board of Trustees of Lane College.

While both have distinguished themselves in many fields of endeavor namely education and religion, it is their untiring service, dedication, and devotion to their Alma Mater, Fair Lane, that has endeared them to this staff and to the Lantites across the nation.

Dr. Stone has served as President of Lane for the past thirteen years. Throughout his administration he has remained a president concerned for the students welfare and accessible to them.

Bishop Graves was elected Chairman of the Board of Trustees in 1982. He assumed this leadership role with an impressive track record of service to Lane College, since then he has continued to work enthusiastically for the benefit of Lane College.

With this "dynamic duo" steering Lane's course, Lantites can be assured that Lane College is building for the future.
